BRITISH JOURNAL OF HAEMATOLOGY

VOL. 89 NO. 1 JANUARY 1995

Research Papers

Haemopoiesis and growth factors

1 **IL-3 increases surface proteoglycan synthesis in haemopoietic progenitors and their adhesiveness to the heparin-binding domain of fibronectin**
Paulette Conget and José J. Minguell

8 **The response of cord blood megakaryocyte progenitors to IL-3, IL-6 and aplastic canine serum varies with gestational age**
Varda R. Deutsch, Thomas A. Olson, Arnon Nagler, Shimon Slavin, Richard F. Levine and Amiram Eldor

17 **Quantitative assessment of erythropoiesis in haemodialysis patients demonstrates gradual expansion of erythroblasts during constant treatment with recombinant human erythropoietin**
Yves Beguin, Martine Loo, Samir R'Zik, Brieuc Sautois, Françoise Lejeune, Georges Rorive and Georges Fillet

24 ***Tat*-expressing Jurkat cells show an increased resistance to different apoptotic stimuli, including acute human immunodeficiency virus-type 1 (HIV-1) infection**
Davide Gibellini, Antonella Caputo, Claudio Celeghini, Alessandra Bassini, Michele La Placa, Silvano Capitani and Giorgio Zauli

Leucocytes

34 **Generation of human natural killer cells from pharmacologically purged bone marrow**
Maria R. G. Silva and Joao L. Ascensao

41 **Circulating megakaryocytes and their progenitors (BFU-MK and CFU-MK) in term and pre-term neonates**
N. A. Murray and I. A. G. Roberts

47 **Increased levels of soluble CD8 and CD4 in patients with infectious mononucleosis**
Akiko Yoneyama, Kazuhiko Nakahara, Masaaki Higashihara and Kiyoshi Kurokawa

Malignancy

55 **Mutations in the p53 gene are not limited to classic 'hot spots' and are not predictive of p53 protein expression in high-grade non-Hodgkin's lymphoma**
S. Kocialkowski, F. Pezzella, H. Morrison, M. Jones, S. Laha, A. L. Harris, D. Y. Mason and K. C. Gatter

61 ***p53* mutation in the myelodysplastic syndromes**
Douglas J. A. Adamson, Audrey A. Dawson, Bruce Bennett, Derek J. King and Neva E. Haites

67 **Efficacy of erythropoietin in the myelodysplastic syndromes: a meta-analysis of 205 patients from 17 studies**
Eva Hellström-Lindberg

72 **PIG-A, DAF and proto-oncogene expression in paroxysmal nocturnal haemoglobinuria-associated acute myelogenous leukaemia blasts**
Haraldine A. Stafford, Shanmugam Nagarajan, J. Brice Weinberg and M. Edward Medof

79 **The effect of cyclosporine on haematological parameters in patients with paroxysmal nocturnal haemoglobinuria**
Harman van Kamp, Gustaaf W. van Imhoff, Joost Th. M. de Wolf, Jan W. Smit, M. Ruud Halie and Edo Vellenga

83 **Transfusion-associated graft-versus-host disease in a patient treated with Cladribine (2-chlorodeoxyadenosine): demonstration of exogenous DNA in various tissue extracts by PCR analysis**
Gilbert B. Zulian, Etienne Roux, Jean-Marie Tiercy, Martine Extermann, Sophie Diebold-Berger, Jean-Marc Reymond, Claudine Helg, Rudolf Zubler, Daniel C. Betticher, Pierre Alberto, Michel Jeannet and Bernard Chapuis

90 **Post-transplant lymphoproliferative disorders with genetic abnormalities commonly found in malignant tumours**
H. J. Delecluse, J. P. Rouault, M. Ffrench, G. Dureau, J. P. Magaud and F. Berger

98 **Early identification of Epstein-Barr virus-associated post-transplantation lymphoproliferative disease**
Cliona M. Rooney, Susan K. Loftin, Martha S. Holladay, Malcolm K. Brenner, Robert A. Krance and Helen E. Heslop

104 **Gene rearrangement in acute non-lymphoblastic leukaemia: correlation with morphological and immunophenotypic characteristics of blast cells**
I. Sánchez, J. F. San Miguel, J. Corral, C. Martín, R. Pérez, M. González, M. C. Cañizo, A. Orfao and R. González-Sarmiento

110 **Idiotype-specific T cells in multiple myeloma stage I: an evaluation by four different functional tests**
Anders Österborg, Qing Yi, Susanne Bergenbrant, Göran Holm, Ann-Kari Lefvert and Håkan Mellstedt

Haemostasis and thrombosis

117 **Rapid detection of hereditary and acquired platelet storage pool deficiency by flow cytometry**
N. Gordon, J. Thom, C. Cole and R. Baker

124 **Platelets with 10% of the normal amount of glycoprotein VI have an impaired response to collagen that results in a mild bleeding tendency**
Morio Arai, Naomasa Yamamoto, Masaaki Moroi, Noriko Akamatsu, Katsuyuki Fukutake and Kenjiro Tanoue (Corrigenda, p. 952)

131 **Altered platelet phospholipid-dependent thrombin generation in thrombocytopenia and thrombocytosis**
Lai Heng Lee and Trevor Baglin

137 **High prevalence of platelet autoantibodies in patients with systemic lupus erythematosus**
Misericordia Pujol, Ana Ribera, Miguel Vilardell, José Ordi and Evaristo Feliu

142 **Plasma concentrations of fibrinogen and factor VII in adult life and their relation to intra-uterine growth**
C. N. Martyn, T. W. Meade, Y. Stirling and D. J. P. Barker

147 **Factor VIII : C increases after desmopressin in a subgroup of patients with autosomal recessive severe von Willebrand disease**
Giancarlo Castaman, Antonella Lattuada, Pier Mannuccio Mannucci and Francesco Rodeghiero

152 **Rapid genotype analysis in type 2B von Willebrand's disease using a universal heteroduplex generator**
Nigel Wood, Graham R. Standen, Elizabeth W. Murray, David Lillicrap, Lars Holmberg, Ian R. Peake and Jeffrey Bidwell

157 **Cleaved antithrombin (ATc): a new marker for thrombin generation and activation of the coagulation system**
Vivian S. Lindo, Vijay V. Kakkar and Euthemia Melissari

Blood transfusion

163 **The use of anti-D to improve post-transfusion platelet response: a randomized trial**
Nancy M. Heddle, Luba Klama, John G. Kelton, Ralph Meyer, Irwin Walker, Lenore Dickson, Shelley Chambers and Mark N. Levine

169 **Genomic RFLP typing of human platelet alloantigens Zw(Pl^A), Ko, Bak and Br (HPA-1, 2, 3, 5)**
K. Unkelbach, R. Kalb, S. Santoso, H. Kroll, C. Mueller-Eckhardt and V. Kiefel

Iron

177 **Plasma clearance of transferrin in control and hypotransferrinaemic mice: implications for regulation of transferrin turnover**
K. B. Raja, R. J. Simpson and T. J. Peters

Rapid Paper

181 **Iron chelators induce apoptosis in proliferating cells**
Dona Hileti, Panayiotis Panayiotidis and A. Victor Hoffbrand

Short Reports

188 **Myelodysplasia and acute myeloid leukaemia in cases of aplastic anaemia and congenital neutropenia following G-CSF administration**
Shinsaku Imashuku, Shigeyoshi Hibi, Yoshiko Kataoka-Morimoto, Takao Yoshihara, Satoshi Ikushima, Yoshihito Morioka and Shinjiro Todo

191 **Human recombinant granulocyte-macrophage colony stimulating factor (hrGM-CSF) improves double hemibody irradiation (DHBI) tolerance in patients with stage III multiple myeloma: a pilot study**
X. Troussard, M. Macro, B. Vie, A. Batho, A. M. Peny, O. Reman, I. Tabah and M. Leporrier

196 **Cytomegalovirus-induced T-cell proliferation and the development of progressive multifocal leucoencephalopathy following bone marrow transplantation**
R. G. Owen, R. D. Patmore, G. M. Smith and D. L. Barnard

199 **Plasma nitrate concentrations in neutropenic and non-neutropenic patients with suspected septicaemia**
Ian J. Neilly, Mhairi Copland, Montaser Haj, Gillian Adey, Nigel Benjamin and Bruce Bennett

203 **Family studies in an extremely large mild haemophilia A pedigree which includes 10% of Greek haemophiliacs**
T. Mandalaki, E. Koumbarelis, A. Gialeraki and A. Apostolou

207 **Characterization of blasts from a patient with eosinophilic blast crisis of chronic myelogenous leukaemia**
Toshihiro Miyamoto, Koji Nagafuji, Mine Harada, Kazuo Yamasaki, Tsunefumi Shibuya, Hiromi Iwasaki, Koichi Akashi, Shin-ichi Mizuno, Tetsuya Eto, Katsuto Takenaka, Hisashi Gondo, Takashi Okamura and Yoshiyuki Niho

211 **Myelodysplastic syndrome in two young brothers**
Masao Hirose, Masami Kawahito and Yasuhiro Kuroda

214 **Absence of hepatitis A virus transmission by high-purity solvent detergent treated coagulation factor concentrates in Scottish haemophiliacs**
Henry G. Watson, Christopher A. Ludlam, Fiona McOmish, Rosemary Dennis, Helena Hart and Peter Simmonds

217 **Hypercalcaemia and increased serum interleukin-6 levels induced by all-*trans* retinoic acid in patients with multiple myeloma**
Ruben Niesvizky, David S. Siegel, Xavier Busquets, Gwen Nichols, Josephia Muindi, Raymond P. Warrell, Jr and Joseph Michaeli

219 **A novel CSF-1 binding factor in a patient in complete remission following cytotoxic therapy for lymphoma**
A. H. Baker, P. G. Cachia, G. B. Tennant, J. A. Whittaker, D. White, E. R. Stanley, A. K. Burnett and R. A. Padua

223 **Detection of t(14;18) in British follicular lymphoma using cytogenetics, Southern blotting and the polymerase chain reaction**
Gillian E. Turner, Fiona M. Ross and Andrew S. Krajewski

Correspondence

226 **Do CD34$^+$ cell counts predict haemopoietic recovery after autologous blood stem cell transplantation (ABSCT)?**
Aleksandar Mijovic, Ghulam J. Mufti and William I. Bensinger

227 **Family history and inherited thrombophilia**
Alberto Tosetto, Maurizio Frezzato and Francesco Rodeghiero

228 **Incidence of myelofibrosis following treatment of primary polycythaemia by venesection**
M. Messinezy, T. C. Pearson and Yves Najean

VOL. 89 NO. 2 FEBRUARY 1995

Annotation

231 **Acquired haemophilia and its management**
A. E. Morrison and C. A. Ludlam

Research Papers

Haemopoiesis and growth factors

237 **Effects of interleukin-6 on mobilization of primitive haemopoietic cells into the circulation**
Ruth Pettengell, Thomas Luft, Erika de Wynter, Lucia Coutinho, Rosemary Young, Lesley Fitzsimmons, J. Howard Scarfe and Nydia G. Testa

243 **Diagnostic value of serum IL-6 level in monoclonal gammopathies**
Laurence DuVillard, Michel Guiguet, Rene-Olivier Casasnovas, Denis Caillot, Veronique Monnier-Zeller, Agnes Bernard, Henri Guy and Eric Solary

250 **Immunocytochemical and flow cytometric detection of proteinase 3 (myeloblastin) in normal and leukaemic myeloid cells**
Robert Dengler, Ursula Münstermann, Salah Al-Batran, Irmela Hausner, Stefan Faderl, Christoph Nerl and Bertold Emmerich

258 **Induction of differentiation into monocyte/macrophage cell lineage of a human eosinophilic leukaemia cell line EoL-1 by simultaneous stimulation with tumour necrosis factor-α and interferon-γ**
Toshiharu Nakajima, Naomi Yamashita, Hideki Matsui, Noboru Suzuki, Hidetoshi Kaneoka, Yutaka Mizushima and Tsuyoshi Sakane

266 **Erythropoietin gene expression in fetal and adult sheep kidney**
I. A. Darby, B. A. Evans, P. Fu, G. B. Lim, K. M. Moritz and E. M. Wintour

Leucocytes

271 **Correlations between the intensity of fMLP-dependent respiratory burst and cellular fatty acid composition in human neutrophils**
P. Bellavite, P. Guarini, D. Biasi, A. Carletto, M. T. Trevisan, P. Caramaschi, L. M. Bambara and R. Corrocher

277 **Childhood onset cyclic neutropenia: G-CSF therapy restores neutrophil count but does not influence superoxide anion and cytokine release by neutrophils**
Renzo Marcolongo, Renato Zambello, Livio Trentin, Marco Cassatella, Giuseppe Gasparotto and Carlo Agostini

282 **Immunomodulation treatment for childhood virus-associated haemophagocytic lymphohistiocytosis**
Rong-Long Chen, Kai-Hsin Lin, Dong-Tsamn Lin, Ih-Jen Su, Li-Min Huang, Ping-Ing Lee, Kue-Hsiung Hseih, Kuo-Sin Lin and Chin-Yun Lee

291 **Efficacy of an analysis of lymphocyte subsets in predicting the clinical response to α-interferon therapy in thalassaemia patients with chronic infection by hepatitis C virus: a pilot study**
Giovanna Russo-Mancuso, Felicia Di Gregorio, Enrica Passero, Antonella Sciotto, Maria Clorinda Mazzarino, Grazia Malaponte and Gino Schilirò

299 **The vascular cell adhesion molecule (VCAM-1) is expressed on a subset of lymphoid and myeloid leukaemias**
M. A. Reuss-Borst, Y. Ning, G. Klein and C. A. Müller

Erythrocytes

306 **A new Turkish type of β-thalassaemia major with homozygosity for two non-consecutive 7·6 kb deletions of the $\Psi\beta$ and β genes and an intact δ gene**
C. Öner, R. Öner, A. Gürgey and Ç. Altay

313 **Long-term treatment with interferon-α2b for severe pruritis in patients with polycythaemia vera**
E. W. Muller, J. Th. M. de Wolf, R. Egger, P. W. Wijermans, P. C. Huijgens, M. R. Halie and E. Vellenga

Malignancy

319 **The SCID mouse as a model for multiple myeloma**
Els J. M. Ahsmann, Maarten J. D. van Tol, Joy Oudeman-Gruber, Henk Lokhorst, Fons G. C. M. Uytdehaag, Henk-Jan Schuurman and Andries C. Bloem

328 **Low-dose recombinant interleukin-2 therapy in advanced multiple myeloma**
Dietrich Peest, Regine Leo, Sabine Bloche, Reinhard Hein, Sabine Stannat-Kiessling, Barbara Tschechne, Werner Fett, Peter Harms, Lutz Hoffmann, Reiner Bartl, Hans-Heinrich Wacker, Siegfried Görg, Jens Atzpodien, Hartmut Kirchner and Helmuth Deicher

338 **Immunophenotype of c-kit cells in normal human bone marrow: implications for the detection of minimal residual disease in AML**
A. Macedo, A. Orfao, A. Martínez, M. B. Vidriales, B. Valverde, M. C. López-Berges and J. F. San Miguel

342 **Prognostic value of S-phase cells in AML patients**
M. B. Vidriales, A. Orfao, M. C. López-Berges, M. González, A. López-Macedo, J. Ciudad, A. López, M. A. García, J. Hernández, D. Borrego and J. F. San Miguel

349 **Detection of *BCR-ABL* and *E2A-PBX1* fusion genes by RT-PCR in acute lymphoblastic leukaemia with failed or normal cytogenetics**
Prema E. Devaraj, Letizia Foroni, Vasiliki Kitra-Roussos and Lorna M. Secker-Walker

356 **Expression of mdr1, mrp, topoisomerase IIα/β, and cyclin A in primary or relapsed states of acute lymphoblastic leukaemias**
James Beck, Rupert Handgretinger, Roland Dopfer, Thomas Klingebiel, Dietrich Niethammer and Volker Gekeler

364 **Gender and treatment outcome in childhood lymphoblastic leukaemia: report from the MRC UKALL trials**
J. M. Chessells, S. M. Richards, C. C. Bailey, J. S. Lilleyman and O. B. Eden

373 **The two CD23 isoforms display differential regulation in chronic lymphocytic leukaemia**
S. Fournier, L. P. Yang, G. Delespresse, M. Rubio, G. Biron and M. Sarfati

Haemostasis and thrombosis

380 **A flow cytometric assay using mepacrine for study of uptake and release of platelet dense granule contents**
Judith E. Wall, Marleen Buijs-Wilts, Julie T. Arnold, Winfred Wang, Melanie M. White, Lisa K. Jennings and Carl W. Jackson

386 **A three-base deletion removing a leucine residue in a leucine-rich repeat of platelet glycoprotein Ibα associated with a variant of Bernard-Soulier syndrome (Nancy I)**
Corinne de la Salle, Marie-Jeanne Baas, François Lanza, Agnès Schwartz, Daniel Hanau, Jerôme Chevalier, Christian Gachet, Marie-Elisabeth Briquel and Jean-Pierre Cazenave

397 **Anti β_2 glycoprotein I antibodies: detection and association with thrombosis**
M. E. Martinuzzo, R. R. Forastiero and L. O. Carreras

Iron

403 **Pharmacokinetics of the oral iron chelator deferiprone (L_1) in patients with iron overload**
F. N. Al-Rafaie, L. N. Sheppard, P. Nortey, B. Wonke and A. V. Hoffbrand

Short Reports

409 **Heteroduplex screening for molecular defects in factor IX genes from haemophilia B families**
Shi-Han Chen, Jon M. Schoof, Ann F. Weinmann and Arthur R. Thompson

413 **IL-3 increases marrow and peripheral erythroid precursors in chronic pure red cell aplasia presenting in childhood**
Yves Bastion, Lydia Campos, Nora Roubi, Jacques Bienvenu, Pascale Felman, Charles Dumontet and Bertrand Coiffier

417 **Rapid and sensitive non-radioactive assay for the detection of clonal gene rearrangements in B-lineage acute leukaemia**
Gerald Martin, Robert Mairs, Jeremy Platt and Brenda Gibson

421 **Haptoglobin therapy for acute favism: a Japanese boy with glucose-6-phosphate dehydrogenase Guadalajara**
Shouichi Ohga, Eriko Higashi, Akihiro Nomura, Akinobu Matsuzaki, Akira Hirono, Shiro Miwa, Hisaichi Fujii and Kohji Ueda

424 **Lack of G blood group antigen in D^{IIIb} erythrocytes is associated with segmental DNA exchange between *RH* genes**
Christelle Rouillac, Caroline Le Van Kim, Antoine Blancher, Francis Roubinet, Jean Pierre Cartron and Yves Colin

Correspondence

427 **The evaluation of results of CMV antigenaemia assays in bone marrow transplant recipients**
Maria Koehler, Kirsten St. George and Charles Rinaldo, Jr

428 **Anti-HPA-1b really causes neonatal thrombocytopenia**
John N. van den Anker, Elly Huiskes, Leendert Porcelein and A. E. G. Kr. von dem Borne

428 **Atypical chronic myeloid leukaemia and chronic myelomonocytic leukaemia in children**
Henrik Hasle and Gitte Kerndrup

430 **Announcements**

430 **Corrigendum**

VOL. 89 NO. 3 MARCH 1995

Annotation

431 **Heparin-induced thrombocytopenia**
B. H. Chong

Research Papers

Haemopoiesis and growth factors

440 **Reactivity with erythroid and non-erythroid tissues of a murine monoclonal antibody to a synthetic peptide having amino acid sequence common to cytoplasmic domain of human glycophorins C and D**
M.-J. King, C. H. Holmes, R. E. Mushens, W. Mawby, M. E. Reid and M. L. Scott

449 **Changes in erythroid progenitor cell and accessory cell compartments in patients with myelodysplastic syndromes during treatment with all-*trans* retinoic acid and haemopoietic growth factors**
A. B. Maurer, A. Ganser, G. Seipelt, O. G. Ottmann, U. Mentzel, G. R. Geissler and D. Hoelzer

457 **Diamond-Blackfan anaemia: three patterns of *in vitro* response to haemopoietic growth factors**
Colin P. McGuckin, Sarah E. Ball and Edward C. Gordon-Smith

Leucocytes

465 **Granulocyte colony-stimulating factor administration modulates the surface expression of effector cell molecules on human monocytes**
Akimichi Ohsaka, Katsu Saionji, Tomoaki Kuwaki, Toshisuke Takeshima and Jun Igari

Erythrocytes

473 **Relationship between transfusion regimen and suppression of erythropoiesis in β-thalassaemia major**
Mario Cazzola, Piero De Stefano, Luisa Ponchio, Franco Locatelli, Yves Beguin, Carlo Dessì, Susanna Barella, Antonio Cao and Renzo Galanello

479 **Clinical and laboratory effects of long-term administration of hydroxyurea to patients with sickle-cell/β-thalassaemia**
Ersi Voskaridou, Vassiliki Kalotychou and Dimitris Loukopoulos

485 **Thalassaemia in Vanuatu, South-West Pacific: frequency and haematological phenotype of young children**
M. Ganzakowski, D. K. Bowden, K. Maitland, T. N. Williams, D. O'Shaughnessy, J. Viji, A. Lucassen, J. B. Clegg and D. J. Weatherall

496 **α-Thalassaemia in the population of Cyprus**
E. Baysal, M. Kleanthous, G. Bozkurt, A. Kyrri, E. Kalogirou, M. Angastiniotis, P. Ioannou and T. H. J. Huisman

Malignancy

500 **Fatal haemoptysis in pulmonary filamentous mycosis: an underevaluated cause of death in patients with acute leukaemia in haematological complete remission. A retrospective study and review of the literature**
Livio Pagano, Paolo Ricci, Annamaria Nosari, Anna Tonso, Massimo Buelli, Marco Montillo, Laura Cudillo, Annarita Cenacchi, Chiara Savignana, Lorella Melillo, Anna Chierichini, Roberto Marra, Giampaolo Bucaneve, Giuseppe Leone and Albano Del Favero

506 **T-cell-depleted allogeneic bone marrow transplantation for acute leukaemia using Campath-1 antibodies and post-transplant administration of donor's peripheral blood lymphocytes for prevention of relapse**
E. Naparstek, R. Or, A. Nagler, G. Cividalli, D. Engelhard, M. Aker, Z. Gimon, N. Manny, T. Sacks, Z. Tochner, L. Weiss, S. Samuel, C. Brautbar, G. Hale, H. Waldmann, S. M. Steinberg and S. Slavin

516 **Heterogeneity of t(1;19)(q23;p13) acute leukaemias**
Xavier Troussard, Ruth Rimokh, Françoise Valensi, Daniel Leboeuf, Odile Fenneteau, Anne-Marie Guitard, Anne-Marie Manel, Françoise Schillinger, Chantal Leglise, André Brizard, Jacques Gardais, Michel Lessard, Georges Flandrin and Elizabeth Macintyre

527 **Unexpected high incidence of intracranial subdural haematoma during intensive chemotherapy for acute myeloid leukaemia with a monoblastic component**
E. Jourdan, H. Dombret, S. Glaisner, J. M. Micléa, S. Castaigne and L. Degos

531 **Emergence of karyotypically unrelated clone in remission of *de novo* acute myeloblastic leukaemias**
Shiori Kudoh, Hiroya Asou, Taiichi Kyo, Hideki Asaoku, Hiroo Dohy, Mariko Eguchi, Satoshi Tashiro, Kimio Tanaka and Nanao Kamada

535 **Philadelphia-chromosome-negative peripheral blood stem cells can be mobilized in the early phase of recovery after a myelosuppressive chemotherapy in Philadelphia-chromosome-positive acute lymphoblastic leukaemia**
Angelo M. Carella, Francesco Frassoni, Nicoletta Pollicardo, Ester Pungolino, Raffaella Ferrero, Franca Vasallo, Monica Soracco, Domenico Giordano, Osvaldo Figari, Federica Benvenuto, Gaetano Florio, Paolo Carlier and Mauro Valbonesi

539 **Interferon response in chronic myeloid leukaemia correlates with ABL/BCR expression: a preliminary study**
Jian-Lin Yin, Bronwyn G. Williams, Chris K. Arthur and David D. F. Ma

546 **Analysis of molecular breakpoint and m-RNA transcripts in a prospective randomized trial of interferon in chronic myeloid leukaemia: no correlation with clinical features, cytogenetic response, duration of chronic phase, or survival**
Patricia Shepherd, Ruth Suffolk, Jim Halsey and Norman Allan

555 **Retinoic acid inhibits the growth of human myeloma cells *in vitro***
Antonio Palumbo, Silvano Battaglio, Patrizia Napoli, Benedetto Bruno, Paolo Omedè, Mario Boccadoro and Alessandro Pileri

561 **Interferon alfa-2b versus no maintenance therapy during the plateau phase in multiple myeloma: a randomized study**
Jan Westin, Stig Rödjer, Ingemar Turesson, Agostino Cortelezzi, Martin Hjorth and Göran Zador

569 **Frequent association of t(3;14) or variant with other lymphoma-specific translocations**
Douglas E. Horsman, B. Kelly McNeil, Michelle Anderson, Tamara Shenkier and Randy D. Gascoyne

Haemostasis and thrombosis

576 **The receptor for urokinase plasminogen activator is present in plasma from healthy donors and elevated in patients with paroxysmal nocturnal haemoglobinuria**
Ebbe Rønne, Helle Pappot, Jan Grøndahl-Hansen, Gunilla Høyer-Hansen, Torben Plesner, Niels Ebbe Hansen and Keld Danø

582 **Attenuated platelet sensitivity to collagen in patients with neurofibromatosis type 1**
John E. J. Rasko, Kathryn N. North, Emmanuel J. Favaloro, Linda Grispo and Michael C. Berndt

589 **Antithrombin-TRI (Ala382 to Thr) causing severe thromboembolic tendency undergoes the S-to-R transition and is associated with a plasma-inactive high-molecular-weight complex of aggregated antithrombin**
V. S. Lindo, V. V. Kakkar, M. Learmonth, E. Melissari, F. Zappacosta, M. Panico and H. R. Morris

602 **Antithrombins Southport (Leu 99 to Val) and Vienna (Gln 118 to Pro): two novel antithrombin variants with abnormal heparin binding**
V. Chowdhury, B. Mille, R. J. Olds, D. A. Lane, J. Watton, T. W. Barrowcliffe, I. Pabinger, B. E. Woodcock and S. L. Thein

610 **Severe autoimmune protein S deficiency in a boy with idiopathic purpura fulminans**
F. Bergmann, P. F. Hoyer, S. Vigano′ D'Angelo, G. Mazzola, C. Oestereich, M. Barthels and A. D'Angelo

Short Reports

615 **The first report of familial adult T-cell leukaemia lymphoma in the United Kingdom**
Estella Matutes, Margaret F. Spittle, Neil P. Smith, Robin A. J. Eady and Daniel Catovsky

620 **Flow cytometric determination of pre-transfusion red cell volume in fetuses and neonates requiring transfusion based on RhD^+ dilution by transfused D^- red cells**
R. Wynn, S. Dixon, S. A. Al-Ismail, J. G. Jones, J. Fisher, T. Hoy, A. Dawson and C. A. J. Wardrop

623 **Expression of granulocyte colony-stimulating factor receptor on CD10-positive human B-cell precursors**
Takeshi Inukai, Kanji Sugita, Kiyomu Iijima, Toru Tezuka, Kumiko Goi, Satoru Kojika, Kyoko Shiraishi, Keiko Kagami and Shinpei Nakazawa

627 **Effective treatment of disease-related anaemia in B-chronic lymphocytic leukaemia patients with recombinant human erythropoietin**
Gerassimos A. Pangalis, Christos Poziopoulos, Maria K. Angelopoulou, Marina P. Siakantaris and Panos Panayiotidis

630 **Epinephrine test and plasma elastase as diagnostic tools in a patient with $CD3^+$ large granular lymphocyte proliferation**
Jörg Seebach, Boris Schleiffenbaum, Regula Rüegg and Jörg Fehr

633 **Non-radioactive SSCP for genotyping human platelet alloantigens**
Olivier Peyruchaud, Alan Nurden and François Bourre

637 **Low-dose cladribine for symptomatic hairy cell leukaemia**
Gunnar Juliusson, Rodica Lenkei, Geir Tjønnfjord, Dag Heldal and Jan Liliemark

640 **Detection of monoclonal plasma cells in the peripheral blood stem cell harvests of patients with multiple myeloma**
Thomas E. Witzig, Morie A. Gertz, Alvaro A. Pineda, Robert A. Kyle and Philip R. Greipp

643 **Thrombotic thrombocytopenic purpura-like syndrome in the absence of schistocytes**
Stephen Fava and Alfre Caruana Galizia

645 **Application of a polymorphic Y microsatellite to the detection of post bone marrow transplantation chimaerism**
Y.-M. D. Lo, L. Noakes, E. Roux, M. Jeannet, B. Chapuis, K. A. Fleming and J. S. Wainscoat

650 **Transformation into acute basophilic leukaemia in a patient with myelodysplastic syndrome**
Tetsuya Yamagata, Akiyoshi Miwa, Mitsuoka Eguchi, Seiichi Kitagawa, Kazuo Muroi, Kiyohiko Hatake, Toshio Suda, Shinobu Sakamoto and Yasusada Miura

653 **Persistent lymphocytosis of natural killer cells in autoimmune thrombocytopenic purpura (ATP) patients after splenectomy**
J. Garcia-Suarez, A. Prieto, E. Reyes, K. Arribalzaga, M. A. Perez-Machado, M. Lopez-Rubio, L. Manzano and M. Alvarez-Mon

656 **A novel candidate mutation ($Arg^{611} \rightarrow His$) in type I 'platelet discordant' von Willebrand's disease with desmopressin-induced thrombocytopenia**
Giancarlo Castaman, Jeroen C. J. Eikenboom, Francesco Rodeghiero, Ernest Briët and Pieter H. Reitsma

659 **Co-segregation of thrombosis with the factor V Q506 mutation in an extended family with resistance to activated protein C**
Sylvie Beufé, Jeanne-Yvonne Borg, Marc Vasse, Françoise Charbonnier, Viviane Moreau, Mathieu Monconduit and Thierry Frebourg

663 **Microscopic haematuria as a relative contraindication for tranexamic acid**
Marc Schultz and Han van der Lelie

665 **Detection of chromosome 11 alterations in blood and bone marrow by interphase cytogenetics in mantle cell lymphoma**
Emanuele Zucca, Gianni Soldati, Brigitte Schlegelberger, Mark J. Booth, Klaus Weber-Matthiesen, Franco Cavalli and Finbarr E. Cotter

669 **Identification of biclonal (duplex) leukaemic cells expressing either $CD4^+/CD8^-$ or $CD4^-/CD8^+$ from a patient with adult T-cell leukaemia/lymphoma**
Seiji Kondo, Tomio Kotani, Shinichiro Tsumori, Shinichiro Narahara, Yatsuki Aratake, Masako Kobayashi, Masayoshi Takahashi, Shouhei Inoue and Sachiya Ohtaki

672 **The high frequency of the $-6G \rightarrow A$ factor IX promoter mutation is the result both of a founder effect and recurrent mutation at a CpG dinucleotide**
G. E. Morgan, M. S. Figueiredo, P. R. Winship, R. Baker, P. H. B. Bolton-Maggs and G. G. Brownlee

675 **Refractory anaemia with preleukaemic polyclonal haemopoiesis and the emergence of monoclonal erythropoiesis on disease progression**
Dominic J. Culligan, David T. Bowen, Alison May, Denise White, Rose Ann Padua and Alan K. Burnett

678 ***In vivo* folic acid supplementation partially corrects *in vitro* methotrexate toxicity in patients with Down syndrome**
Marie A. Peeters, Marie-Odile Rethore and Jérôme Lejeune

681 **Evidence of clonality in a child with haemophagocytic lymphohistiocytosis**
G. Owen and D. K. H. Webb

Correspondence

683 **International normalized ratio in the control of oral anticoagulant therapy**
K. W. E. Denson

684 **Experiences with the determination of chimaera bcr-abl messages in bone marrow and peripheral blood samples in chronic myeloid leukaemia**
Piroska Páldi-Haris and János Földi

685 **Parathyroid hormone related protein in hypercalcaemia in CLL**
John F. Seymour and M. J. Keating

686 **Abnormal lipoprotein in cholestasis**
J. M. Werre and J. de Gier

686 **Relation between spiculated red cells and platelets in uraemic patients**
B. Agroyannis, A. Dalamangas, H. Tzanatos, C. Fourtounas, I. Kopelias and D. Koutsikos

688 **An interstitial deletion in the rearranged T-cell receptor γ chain locus in a case of T-cell acute lymphoblastic leukaemia**
T. F. Carr, R. F. Stevens, C. Burton and C. J. Harrison

689 **Infection at the time of peripheral blood stem cell leukapheresis results in reduced granulocyte-macrophage colony forming unit yields**
Peter R. E. Johnson, C. Lesley Fitzsimmons, James Chang, Godfrey R. Morgenstern, J. Howard Scarffe and William I. Bensinger

690 **Transmission of human T-lymphotrophic virus type 1 by bone marrow transplantation**
Isao Miyoshi, Naoaki Murata, Hisanori Machida, Hirokuni Taguchi and Per Ljungman

691 **Family history and inherited thrombophilia**
E. Briët, F. J. M. van der Meer, F. R. Rosendaal, J. J. Houwing-Duistermaat and H. C. van Houwelingen

692 **Announcements**

692 **Corrigendum**

VOL. 89 NO. 4 APRIL 1995

Annotation

693 **Quantitative PCR techniques and applications**
N. C. P. Cross

Research Papers

Haemopoiesis and growth factors

698 ***In vitro* inhibition of tumour necrosis factor-α and interleukin-6 production by intravenous immunoglobulins**
Michael Toungouz, Chantal H. Denys, Donat De Groote and Etienne Dupont

Leucocytes

704 **B lymphocytes with latent EBV infection appearing in long-term bone marrow cultures (HLTBMCs) from haematological patients induce lysis of stromal microenvironment**
Borislava G. Pavlova, Helmut H. Mühlberger, Herbert Strobl, Renate Grill, Alexander Haslberger, Franz Varga, Herbert Auer, Renate Heinz, Julius Salamon, Alois Stacher and Heidrun Karlic

712 **Potentiation of lysis of leukaemia cells by a bispecific antibody to CD33 and CD16 (FcγRIII) expressed by human natural killer (NK) cells**
Lucia M. R. Silla, Jian Chen, Rui-kun Zhong, Theresa L. Whiteside and Edward D. Ball

719 **Soluble tumour necrosis factor receptors, tumour necrosis factor and interleukin-6 in serum in granulocytopenic patients with fever**
Sigurd Steinshamn, Ole-Lars Brekke and Anders Waage

725 **Adhesion of flowing leucocytes to immobilized platelets**
Patricia Lalor and Gerard B. Nash

733 **Phenotypic analysis of functional T-lymphocyte subtypes and natural killer cells in human cord blood: relevance to umbilical cord blood transplantation**
P. Han, G. Hodge, C. Story and X. Xu

Erythrocytes

741 **Flow cytometry analysis of dual red blood cell populations after bone marrow transplantation**
D. Blanchard, V. Bruneau, D. Bernard, F. Germond-Arnoult, A. Gourbil, B. David and J. Y. Muller

748 **Interpretation of measured red cell mass and plasma volume in adults: Expert Panel on Radionuclides of the International Council for Standardization in Haematology**
T. C. Pearson, D. L. Guthrie, J. Simpson, S. Chinn, G. Barosi, A. Ferrant, S. M. Lewis and Y. Najean

757 **Needle liver biopsy in thalassaemia: analyses of diagnostic accuracy and safety in 1184 consecutive biopsies**
Emanuele Angelucci, Donatella Baronciani, Guido Lucarelli, Massimo Baldassarri, Maria Galimberti, Claudio Giardini, Filiberto Martinelli, Paola Polchi, Vincenzo Polizzi, Marta Ripalti and Pietro Muretto

762 **A point mutation in the protein 4.2 gene (allele 4.2 Tozeur) associated with hereditary haemolytic anaemia**
S. Hayette, L. Morle, M. Bozon, A. Ghanem, M. Risinger, C. Korsgren, M. J. A. Tanner, S. Fattoum, C. M. Cohen and J. Delaunay

Malignancy

771 **Absence of G-CSF receptors and absent response to G-CSF in childhood Burkitt's lymphoma and B-ALL cells**
Jörg Tomeczkowski, Elif Yakisan, Britta Wieland, Alfred Reiter, Karl Welte and Karl-Walter Sykora

780 **Mediastinal large B-cell lymphoma: clinical and immunohistological findings in 18 patients treated with different third-generation regimens**
B. Falini, S. Venturi, M. Martelli, A. Santucci, S. Pileri, E. Pescarmona, M. Giovannini, P. Mazza, M. F. Martelli, L. Pasqualucci, E. Ballatori, C. Guglielmi, S. Amadori, S. Poggi, E. Sabattini, F. Gherlinzoni, P. L. Zinzani, C. D. Baroni, F. Mandelli and S. Tura

790 **High-dose vincristine, fractionated total-body irradiation and cyclophosphamide as conditioning regimen in allogeneic and autologous bone marrow transplantation for childhood acute lymphoblastic leukaemia in second remission: a 7-year Italian multicentre study**
Cornelio Uderzo, Roberto Rondelli, Giorgio Dini, Sandro Dallorso, Chiara Messina, Roberto Miniero, Franco Locatelli, Andrea De Manzini, Andrea Pession, Adriana Balduzzi, Anna Locasciulli and Giuseppe Masera

798 **Over-expression of cyclin D1 in chronic B-cell malignancies with abnormality of chromosome 11q13**
Alain Delmer, Florence Ajchenbaum-Cymbalista, Ruoping Tang, Sylvie Ramond, Anne-Marie Faussat, Jean-Pierre Marie and Robert Zittoun

805 **Establishment of a myeloid leukaemic cell line (SKNO-1) from a patient with t(8;21) who acquired monosomy 17 during disease progression**
Sachiko Matozaki, Toshitaro Nakagawa, Ryuji Kawaguchi, Ryoji Aozaki, Masayoshi Tsutsumi, Tohru Murayama, Tamio Koizumi, Ryuichiro Nishimura, Takashi Isobe and Kazuo Chihara

812 **Cobalamin forms and analogues in plasma and myeloid cells during chronic myelogenous leukaemia related to clinical condition**
Peter Gimsing

820 **Bone marrow pathology in relapsing polychondritis: high frequency of myelodysplastic syndromes**
J. Diebold, G. Rauh, K. Jäger and U. Löhrs

831 **The use of r-HuEpo in the treatment of anaemia related to myelodysplasia (MDS)**
Esther H. Rose, Robert I. Abels, Richard A. Nelson, Doreen M. McCullough and Lawrence Lessin

838 **Clonal analysis of peripheral blood and haemopoietic colonies in patients with aplastic anaemia and refractory anaemia using the polymorphic short tandem repeat on the human androgen-receptor (HUMARA) gene**
Kazuaki Anan, Maki Ito, Mahito Misawa, Yokiko Ohe, Shunro Kai, Masatoshi Kohsaki and Hiroshi Hara

Haemostasis and thrombosis

845 **A specific allele of the histidine-rich glycoprotein (HRG) locus is linked with elevated plasma levels of HRG in a Dutch family with thrombosis**
B. C. Hennis, P. A. Van Boheemen, B. P. C. Koeleman, D. I. Boomsma, L. Engesser, A. G. M. Van Wees, I. Novakova, E. J. P. Brommer and C. Kluft

853 **Platelet activation induced by a murine monoclonal antibody directed against a novel tetra-span antigen**
J. J. Roberts, S. E. Rodgers, J. Drury, L. K. Ashman and J. V. Lloyd

861 **Impaired high-shear-stress-induced platelet aggregation in patients with chronic renal failure undergoing haemodialysis**
Eri Yoshida, Yoshihiro Fujimura, Yasuo Ikeda, Ichiroh Takeda, Yasuhiro Yamamoto, Kiyoshi Nishikawa, Kazuhiko Miyataka, Masahiro Oonuki, Tomihisa Kawasaki, Masahiko Katayama and Nobuhiro Narita

Iron

868 **Desferrioxamine therapy accelerates clearance of iron deposits after bone marrow transplantation for thalassaemia**
C. Giardini, M. Galimberti, G. Lucarelli, P. Polchi, E. Angelucci, D. Baronciani, D. Gaziev, B. Erer, G. La Nasa, I. Barbanti and P. Muretto

874 **Assessment of intestinal blood-flux by laser Doppler fluxmetry in mice with altered intestinal iron absorption**
K. B. Raja, R. J. Simpson and T. J. Peters

880 **Evaluation of transfusional iron overload before and during iron chelation by magnetic resonance imaging of the liver and determination of serum ferritin in adult non-thalassaemic patients**
P. D. Jensen, F. T. Jensen, T. Christensen and J. Ellegaard

Short Reports

890 **t(8;21) myelodysplasia, an early presentation of M2 AML**
A. S. Taj, F. M. Ross, M. Vickers, D. N. Choudhury, J. F. Harvey, J. C. K. Barber, C. Barton and A. G. Smith

893 **Factor V inhibitor associated with Sjögren's syndrome**
Takatoshi Koyama, Takako Saito, Takayoshi Kusano and Shinsaku Hirosawa

897 **Soluble c-kit levels in acute GVHD after allogeneic bone marrow transplantation**
Satoshi Hashino, Masahiro Imamura, Sumiko Kobayashi, Junji Tanaka, Masaharu Kasai, Keisuke Sakurada and Masahiro Asaka

900 **Familial thrombocytosis**
M. Kikuchi, T. Tayama, H. Hayakawa, I. Takahashi, H. Hoshino and A. Ohsaka

903 **A possible anti-emetic role for sodium valproate in cytotoxic chemotherapy**
T. C. Aiken and R. C. Collin

905 **Detection of NPM-ALK DNA rearrangement in CD30 positive anaplastic large cell lymphoma**
W. Waggott, Y.-M. D. Lo, C. Bastard, K. C. Gatter, D. Leroux, D. Y. Mason, J. Boultwood and J. S. Wainscoat

908 **The incidence of factor VIII inhibitors in the United Kingdom, 1990–93**
B. T. Colvin, C. R. M. Hay, F. G. H. Hill and F. E. Preston

911 **Correction of anaemia and thrombocytopenia in a case of adult Type I osteopetrosis with recombinant human erythropoietin**
John Meletis, Michalis Samarkos, Evi Michali, Stathis Vavourakis, Christos Meletis, Christos Poziopoulos, Niki Stavrogianni, Kostas Konstantopoulos, George Vaiopoulos, Xenophon Yataganas and Dimitris Loukopoulos

914 **Long-term disease-free survival after autologous bone marrow transplantation in a primary plasma cell leukaemia: detection of minimal residual disease in the transplant marrow by third-complementarity-determining region-specific probes**
Kun-Huei Yeh, Ming-Tseh Lin, Jih-Luh Tang, Chih-Hsin Yang, Woei Tsay and Yao-Chang Chen

917 **AcSCKP serum concentrations vary during chemotherapy in patients with acute myeloid leukaemia**
Eric Liozon, Leonid Volkov, Lydie Comte, Franck Trimoreau, Philippe Pradelles, Dominique Bordessoule, Emilia Frindel and Vincent Praloran

921 **Acute lymphoblastic transformation of essential thrombocythaemia**
P. T. Murphy, M. Sivakumaran, F. van Rhee, A. E. Watmore and V. E. Mitchell

923 **Parvovirus B19-associated haemophagocytic syndrome in healthy adults**
Kenji Shirono and Hiroyuki Tsuda

927 **Osteoporosis in severe congenital neutropenia treated with granulocyte colony-stimulating factor**
N. J. Bishop, D. M. Williams, J. C. Compston, D. M. Stirling and A. Prentice

929 **Alpha-interferon therapy for congenital dyserythropoiesis type I**
Thierry Lavabre-Bertrand, Pierre Blanc, Robert Navarro, Mezziana Saghroun, Henri Vannereau, Michael Braun, André Wagner, Jacques Taïb, Christine Lavabre-Bertrand and Maurice Navarro

933 **Spectrin Anastasia ($\alpha^{I/78}$): a new spectrin variant (α45 Arg→Thr) with moderate elliptocytogenic potential**
Silverio Perrotta, Achille Iolascon, Filomena De Angelis, Leonide Pagano, Giovanni Colonna, Stefano Cutillo and Emanuele Miraglia del Giudice

937 **PCR-monitoring of minimal residual leukaemia after conventional chemotherapy and bone marrow transplantation in BCR-ABL-positive acute lymphoblastic leukaemia**
Gerlinde Mitterbauer, Manuela Födinger, Renate Scherrer, Paul Knöbl, Ulrich Jäger, Klaus Laczika, Ilse Schwarzinger, Alexander Gaiger, Klaus Geissler, Hildegard Greinix, Peter Kalhs, Werner Linkesch, Klaus Lechner and Christine Mannhalter

Correspondence

942 **Is hairy cell leukaemia more common among farmers?**
H. Hagberg, A. Rask-Andersen, L. Hardell and M. Nordström

943 **Human herpesvirus-6 (HHV-6) in blood donors**
Mario Luppi, Patrizia Barozzi, Roberto Marasca, Luca Ceccherini-Nelli, Giovanni Ceccherelli, Giuseppe Torelli, Wolfgang Siegert, Freimut Wilborn and Christian Andreas Schmidt

945 **Prophylaxis against infections with intravenous immunoglobulins in multiple myeloma**
Pellegrino Musto, Maura Brugiatelli and Mario Carotenuto

946 **Methods of measurement of Rh haemolytic disease**
Stephen F. Garner, Marcela Contreras and Kypros Nicolaides

947 **Spontaneous remission in monosomy 7 myelodysplastic syndrome**
Ely Benaim, Eva V. Hvizdala, Peter Papenhausen and Lynn C. Moscinski

949 **Book Reviews**

952 **Corrigenda**

953 **Author and Keyword Indexes to Volume 89**

VOL. 89 **SUPPLEMENT 1**

Abstracts of papers presented at the Annual Scientific Meeting of the British Society for Haematology, Brighton, UK, 3–6 April 1995
